

United Way of the Greater Seacoast

We all win when a child has a head start on quality education that leads to success in future jobs, when individuals have enough income to support a family through retirement, and when we all enjoy good health. These are benefits that ripple out to the whole community.

Our goal at United Way of the Greater Seacoast is to create **long-lasting changes** by addressing the underlying causes of problems – not just addressing the symptoms. We want to do more than help people lining up for social services – we want to shorten the lines.

United Way and our partners are working so that families who couldn't otherwise afford it have access to safe, high-quality early learning opportunities so their kids can have a brighter future.

Together we're helping working lower-income families claim the tax credit dollars they deserve, increasing their income and providing them with better opportunities to save money and build assets.

And we're helping create opportunities for better health by improving transportation for people who need rides to medical and other social service appointments so they can find care before it becomes an emergency.

Living united means being a part of the change. It takes everyone in the community working together to create a brighter future. Together, we can accomplish more than any single group can on its own.

So starting today, and on through the future, we're asking the Seacoast community to **think of we before me** and do what you can to give, advocate and volunteer. To LIVE UNITED.

GIVE. ADVOCATE. VOLUNTEER.
LIVE UNITED
